DETAILED ACTION

Response to Arguments

- 1. Applicant's arguments with respect to the claims 1, 3-6, 10-19, and 28-44 have been considered but are moot in view of the new ground(s) of rejection.
- 2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1, 3-6, 10-19, and 28-44 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. More specifically, claims 1, 28 and 36, merely cite descriptive material, mere arrangements or compilations of facts or data, or computer program per se, and are not statutory, wherein the claim fails to produce any tangible concrete result.
